

SwiftX™ Virus

Technical Sheet

Merging the advantages of both worlds

Rapid + **Sensitive**
like like
quick extraction purification

- Extraction of tropical viruses in **6 minutes**
- Seamless **nuclease inactivation**
- Advanced clearing by **reverse purification**

20µL blood serum spiked with dilutions of FeCoV

5min at 95°C
1min magnetic separation
Quantification by RT-qPCR

Ct values adjusted to sample input and output volumes
